STEFANO GAUDIMUNDO

Lead, Architect, Project Leader, Site Supervisor and E&S Manager
(1963)

Experience

He is a very capable architect with a wide range of project experience including public projects, residential buildings, sport facilities and retail. He is very committed to ensuring that the architectural design be most creative, effective and innovative.

He is particularly interested in architectural technological-centric work, particularly at the construction phases of a project. He is particularly adept at providing pragmatic creativity to projects in their different stages, helping translate architectural concepts into a solution that works structurally, technologically and is efficient and economical to build. He is a good communicator, a great team player and has a great work ethic.

He has over 25 years of design and project management experience extending through every aspect of the building process; though he has gained extensive experience on projects of varying scale, budget, construction and procurement type.

As a project leader he has developed strong leadership skills in managing the documentation and the relationship with Municipal Technical Offices. He also worked as site manager and work supervisor for the following construction sites: construction of new residential buildings at via Alerami, Milan; via 25 Aprile, Pero; via Broglio 21, Milan; via Ettore Ponti, Milan; via Bertini 21, Milan, and others.

Projects for production buildings, offices and retail: offices and laboratories for Sochim spa in Cornaredo (MI); several Wind power plants in North Italy; Renato Corti spa offices in Milan; Radio DeeJay headquarters in Milan; Compass spa offices in Trezzano sul Naviglio (MI).

Projects for sport facilities: Renovation project for Club Francesco Conti in Milan; New building for "Tennis Club Ippolito Nievo" in Milan; renewal of Kennedy Sports Center in Milan; renewal of Colombo Sports Center in Milan; feasibility study for the new "Boccaccio" Sports Center in Sesto San Giovanni (MI); new sports center "Masseroni-Marchese" in via Terzaghi in Milan.

Between his recent projects and realizations, there are some related to the transformation and restoration of historical buildings: the architectural and plan renovation of the neoclassical wind of Palazzo Arese Jacini in Cesano Maderno (MI), the renovation of the Palazzo F.lli Conti in Corso Magenta in Milan as headquarters of Banca Antonveneta; the restoration and reform into apartments of the stands of the Castello di Scaldasole (PV); the reform of Cascina "Mulini Asciutti" in Monza Park (MB).

At Expo 2015 Milan was appointed as Technical Participant Supervisor of Angola Pavilion.
