Experience

He collaborated in the design of houses, public buildings and urban furniture; he also carried out the drafting of building permissions, bills of quantities, construction site accounting, and held the position of operating director in small construction sites.

Since 2006 he collaborates with Studio Progettisti Associati in Milan, which in 2010 became MPS company: since then he actively participates in the design of residential buildings, public buildings, urban furniture and preparation of exhibitions.

Since 2013 he is a member of MPS company. As a senior manager he is responsible for the drafting of building practices, bills of quantities, construction site accounting; he also deals with the coordination of the working staff during the design activities.

At Expo 2015 Milan was appointed as Local Logistic Manager of Angola Pavilion.

He participated in the drafting of roads requalification projects, urban furniture projects and construction projects, such as: Bicycle Path of Sebino Bresciano preliminary-executive design - Milan; new residential building via Alerami - lakeshore and pedestrian underpass in Pisogne (BS); roads requalification and urban redevelopment of the historic centre of Govine (BS); new sport center Masseroni Marchese II in Milan; realization of a residential Piano Integrato di Intervento in Pero (MI); realization of Piano Industriale in Pisogne (BS); offices and laboratories for Sochim spa in Cornaredo (MI); detailed design for Cinema and Planetarium in the Science and Technology Museum of Luanda – Angola; detailed design for urban planning and urban furniture of the Science and Technology Museum of Luanda – Angola; preliminary to detailed design of the Angola Pavilion for Expo Milano 2015,

He also worked alongside the site manager as operating supervisor for the following construction sites: requalification of the historic center of Pogliano Milanese (MI); maintenance and rearrangement of sidewalks and traffic calming works in Monza (MB); roads requalification in Busnago (MB); renovation of EOS-Filippetti offices viale Filippetti, 26 - Milan; roads requalification and street furniture for the lakeside of Pisogne (BS); works of construction for a multipurpose commercial/exhibition structure for the Promenade Tempini - Pisogne (BS); construction of new residential building via Alerami – Milan realization of new production buildings, offices and laboratories for Sochim spa in Cornaredo (MI);
